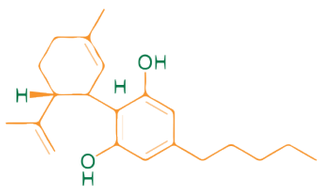
CBD HIT – PURE ORGANIC CBD CRYSTAL

WHAT IS CBD?

Cannabidiol (CBD) is one of many natural compounds found in the hemp plant, known collectively as cannabinoids. It is a natural organic non-psychoactive cannabinoid currently showing promising results in studies all around the world.



HOW CBD WORKS?

The human body has receptors, called CB1 and CB2, located all throughout it that make the Endo-cannabinoid System (ECS). These CB1 and CB2 receptors are located in the Central Nervous System, Peripheral Organs, Brain and other areas of the body. CBD works by interacting with receptors in the ECS – and it's not alone. Other cannabinoids interactwith it as well, such as anandamide; a compound produced naturally with our bodies.

WHAT IS CBD E-LIQUID?

From an EU approved Hemp Farm the CBD is extracted using Co2 extraction to create the CBD Isolate Crystal, its most purist form. Our CBD E-liquid is made from 99.9% Organic CBD Isolate Crystals. We have formulated our CBD E-Liquid using the CBD Crystals in a unique way to enjoy the vape and also enjoy the potential health benefits. Our e-liquid contains 0% nicotine and 0% THC. With four flavours which can be used as an Every Day Vape we also have a Mixer (natural unflavoured) which can be added to your normal e-liquid.

POTENTIAL MEDICAL BENEFITS OF CBD E-LIQUID:

There is a long list of medical conditions that CBD can help potentially help with including

Anxiety	**Epilepsy**	**Pain Relief**	**Rheumatoid Arthritis**
Diabetes	**Nausea**	**Psoriasis**	**Sleep Disorders**
Digestion	**Neurological Ailments**	**Reduces Inflammation**	**Stress Relief**
